

Geophysical Prospecting Dobrin

Geophysical Prospecting Dobrin **FREE** *geophysical prospecting dobrin* A telluric current (from Latin tellus, "earth"), or Earth current, is an electric current which moves underground or through the sea. Telluric currents result from both natural causes and human activity, and the discrete currents interact in a complex pattern. Telluric current Wikipedia A telluric current from Latin tellus earth or Earth current is an electric current which moves underground or through the sea Telluric currents result from both natural causes and human activity and the discrete currents interact in a complex pattern Why would sea level rise for global warming and polar ice Mean Sea Level MSL is defined as the zero elevation for a local area The zero surface referenced by elevation is called a vertical datum Since sea surface conforms to the earth's gravitational field MSL has also slight hills and valleys that are similar to the land surface but much smoother
